The person's arm is raised, possibly holding a club. The simulator is dark, and the screen shows a bright, green golf course with a body of water in the distance.

# POP-UP WATERFRONT DRIVING RANGE

Hit biodegradable and eco-friendly golf balls into the water.

# MAKE A SPLASH

This is bound to make waves — or at least a splash — at your next event. DiGS has partnered with Maryland-based Splash City Golf to bring its fun waterfront golfing concept to Florida. Here's the deal. We'll provide a floating target, right hand and left-handed clubs for all ages, and the staff to set up, operate, and clean up everything afterward. And don't worry, you won't have to take a swim to retrieve your golf balls. We'll provide those too and they're totally biodegradable.

Whether you're on a beach vacation, strolling along the boardwalk, having a waterfront festival, enjoying a weekend getaway at a lake cabin, or throwing a backyard party with water views, this is guaranteed to liven up your day. We'll even come out to your luxury yacht. After all, who hasn't dreamed about smashing golf balls into the ocean? With DiGS and Splash City, you can now do it with a clear conscience!

Our Pop-Up Waterfront Driving Range is ideally suited for Corporate Events, Private Parties, Weddings, Waterfront Festivals and more!

## Corporate Events

Enjoy the breeze off the water with a drink in one hand and a golf club in the other. This is the perfect activity for company celebrations and team building. Book with one of our waterfront venue partners or a location of your choice.

## Weddings

Say "I DO" to a pop-up waterfront driving range at your wedding. Perfect for pre-wedding pictures, cocktail hour, and entire wedding receptions. We are very experienced working with wedding planners and brides to fit within schedule.

## Private Parties

Be the talk of the neighborhood. Book a waterfront driving range for your house party and have your guests whack balls into your ocean, bay, lake, pond, river, or cove. Perfect for BBQs, parties, and other celebrations.

## Festivals

Looking to add a unique activation to your waterfront festival? Our waterfront driving ranges fit the bill. We are the perfect compliment to live music and great food.

# TRACKMAN GOLF

Ever wondered how pro golfers get so good without dragging a coach around with them everywhere? The answer likely lies with Trackman 4. As the name suggests it's the high-end tracking unit that top players use to analyze every aspect of their game from their body alignment, hand position, swings, and more. You can compare your swing side by side to the pros. Using two radars and one camera, this bad boy eats data for breakfast and spits out an analysis of your game so thoroughly, you'll feel like challenging Phil Mickelson by the time it's through.

The good news is that we'll bring the Trackman 4 to you, in all weather and all locations. Whether you're playing at a charity tournament, an office party, or tradeshow, with the Trackman 4 taking notes, prepare for a serious improvement in your game.
