This is one time you'll be happy to fake it 'til you make it!

ABOUT TRACKMAN

Ever wondered how pro golfers get so good without dragging a coach around with them everywhere? The answer likely lies with Trackman 4. As the name suggests it's the high-end tracking unit that top players use to analyze every aspect of their game. You can compare your swing side by side to the pros. Using two radars and one camera, this bad boy eats data for breakfast and spits out an analysis of your game so thoroughly, you'll feel like challenging Phil Mickelson by the time it's through.

With data at our disposal, raise the stakes at your tournament by adding pay-to-play contests like longest drive, guess your distance or guess your swing speed. We provide everything needed for a successful event, labor, equipment, and power.

ABOUT US

How's this for the perfect golf cocktail? Mix one part PGA grade golf technology, one part next level customer service and professionalism and one part extreme fun. Do that and you'll end up with an irresistible and unforgettable DiGS golfing experience, custom made to cater to any indoor or outdoor event you have in mind.

Our passion for golf is infectious and even you or your guests are novices or only spectators, we guarantee to have you swinging and smiling by time you hand back your clubs. In fact, by the time we're done, you might want to invest in a set of your own.
